“Broadband For Our Country”

ACTIV8me is all about bringing country Australians broadband at metro prices.

With the Australian Government Broadband Connect grant you too can enjoy the benefits of fast internet for as little as \$29.95 per month*

Activ8me is brought to you by Australian Private Networks. The principals of Australian Private Networks have industry experience dating back to 1980 and a proven track record in delivering communication services to regional Australians.

With plans specifically tailored to country Australians, there has never been a better opportunity to get connected.

Bringing you the benefits of Broadband

- Broadband at metro prices \$29.95 per month.**
- High-speed – Min connection speed 256/64. Access websites up to 15 times faster than a standard dial-up connection[^], and browse your favourite sites or download large files in seconds, rather than minutes or hours.
- Always on connection – No more busy signals. You no longer need to tie up your telephone line to connect to the internet.
- Uses satellite technology specifically designed for the Internet.
- All plans include standard satellite installation.**

* To be eligible to receive the Broadband Connect Grant you must reside in an area that could not gain access to a metropolitan grade broadband service or access to an ADSL enable exchange on or before the 8th of April 2004. To qualify for the Broadband Connect High grant you must not be able to access an ISDN service.

To find out whether you qualify for the HiBIS grant call: 1800 804 410.

[^] Comparison based on the maximum speed of 28.8kbps modem. Speed can vary. Not applicable if your service is speed limited.

** Satellite Dish & Mount, Single story roof mount, and <200km from GPO.

Excess data charged at 8 cents per mb and billed when accumulated usage exceeds \$10 in any given billing period.

Plans - Broadband Connect High Grant*

* For customers that do not qualify for Broadband Connect High Grant please speak to one of our friendly customer service representatives for information on other plans available.

About your Government grant

ISDN & ADSL allow people to access the Internet at high speeds. These services are not readily available to regional Australia. To overcome this disadvantage Satellite technology can be used in their place. With Satellite, all Australians can access broadband services. This is where Broadband Connect steps in. As this technology is expensive government funding subsidies the extra costs associated with installing and maintaining the Dish and extra equipment needed.

To be eligible to receive the Broadband Connect Grant you must reside in an area that could not gain access to a metropolitan grade broadband service or access to an ADSL enable exchange on or before the 8th of April 2004. To qualify for the Broadband Connect High Grant you must not be able to access an ISDN service.

The logo for ACTIVE 8me features the word "ACTIVE" in large, bold, black letters with a white outline. To its right, the number "8" is also in large, bold, black letters with a white outline, and the word "me" is in a smaller, lowercase, black font below it. The entire logo is set against a background of several white stars of varying sizes, connected by thin white lines, resembling a constellation or a network map.
